De äldsta skrivna källorna till den kristna lärobildningen utgör delar av Paulus brev, bevarade i Nya Testamentet. I evangelierna och övriga nytestamentliga skrifter möter andra (och delvis svärförenliga) försök att klargöra Kristustron och formulerade läromässiga sammanfattningar. De kristna accepterade den judiska bekännelsen till en enda Gud (46 av 323 ord). Grunden för den kristna läroutvecklingen är övertygelsen om att Gud har givit sig till känna för oss människor- uppenbarat sig. Tydligast har han givit sig till känna genom Jesus Kristus. Kristus ger en bild av hur Gud verkligen är, och han har avgörande betydelse för gemenskapen mellan människan och Gud. Det innebär också att den religiösa tradition som Jesus tillhörde, den (62 av 436 ord). 400-talets teologiska strider (koncentrerade kring kyrkomötena i Efesos (59 av 421 ord). Believing in the Church, A Report by the Doctrine Commission of the Church of England (. Enligt traditionellt teologiskt uttryckssätt är människan Guds avbild (latin imago Dei ), vilket innebär att var och en har en egen värdighet oberoende av yttre omständigheter. När den tidiga kyrkans teologer skulle utlägga läran om människans unika ställning tog de hjälp främst av den platoniska filosofin. Härigenom kom det platoniska själsbegreppet att övertas av kristendomen. Människan ses som en varelse med en odödlig, oändligt värdefull själ. Även gudsligheten har knutits till själen. Sammanhängande med detta är att läran efter hand kom (80 av 898 ord). Kristendomen präglades från början av den judiska miljö där den framträdde. (11 av 74 ord). I Europa innebar reformationen dramatiska förändringar i den kristna kyrkans förhållanden. Vad som från början var tänkt som en inomkyrklig reformrörelse ledde till djupgående splittring, (80 av 720 ord). När urkyrkan gradvis utskildes från judendomen utformades en kristen lära, som (11 av 39 ord). Det är en gemensam kristen uppfattning att det finns ett liv efter döden (se evigt liv ) och att detta liv påverkas av hur vi har levt i världen. Det är också en självklar teologisk insikt att vi (37 av 263 ord). Genom Kristi verk kan den skadade människan bli räddad, och det av Gud avsedda tillståndet blir då förverkligat. Detta är grundtanken i kristen frälsningslära. Den närmare innebörden och förståelsen av läran har diskuterats utförligt alltsedan den tidiga kyrkan; se frälsning. Kyrkofadern Irenaeus (död vid början av 200-talet) är en tidig representant för en profilerad frälsningslära. Kristus är den bild efter vilken människan skapats, och människans bestämelse är att växa och utvecklas till Kristuslikhet. Men detta hindras av att människan blivit (80 av 619 ord). Medeltidens slut markerades av flera dramatiska händelser. Konstantinopels fall och turkarnas erövring av hela Balkanhalvön innebar att östkyrkan till stor del hamnade under islamiskt styre. Metropoliten av Moskva framträdde nu som Konstantinopels arvtagare och antog 1589 titeln patriark. Vasco da Gama och Columbus öppnade vägarna inte bara för europeisk kolonisation utan också för kristen mission. Den läromässiga delen av religionen spelar en viktig roll för kristna människor, men läran kan aldrig på ett entydigt och uttömmande sätt beskriva den gudomliga verklighet (26 av 180 ord). Också Paulus mission riktade sig till icke-judar, "hedningar". Vid apostlamötet i Jerusalem år 49 accepterade urförsamlingen under ledning av Jakob, "Herrens

broder", att hedningar skulle kunna upptas utan att omskäras och utan (80 av 601 ord). den religion som utgår från Jesus av Nasaret, av sina. Ett centralt motiv i Jesu förkunnelse sådan som den möter i evangelierna är idén om Guds rike. Guds rike tar glimtvis gestalt runt Jesus; detta har också en fortsättning, som lärjungarna skall ta ansvar för (Matteusevangeliet 28:16-20). Den fortsatta manifestationen av gudsriket är kyrkan uppfattad som en religiös storhet; se kyrka (Kyrkan som trosföremål). Snart uppstod en spänning i kyrkans förhållande (61 av 434 ord). Lumen gentium, Andra Vatikanconciliets dogmatiska konstitution om kyrkan (svensk översättning, 3:e upplagan. Urförsamlingen i Jerusalem bestod av såväl arameisk- som grekisktalande judar. De grekisktalande skall tidigt ha fått ett centrum i det syriska Antiochia. Här började de kalla sig kristna ( christianoi ) och upptog också icke-judar i gemenskapen.
