He is very reliable, gets great results for you, and makes it extremely convenient for you to continue with your work life and personal life while he works hard for you. Highly recommended. Very impressed with Casey. From the start Casey & his staff were thorough. First conversation with Casey was very genuine and respectful. Felt like I was talking to a real person not some salesman. I've unfortunately have had to hire alot of lawyers throughout my life. I've had horrible experiences that have left me sick to my stomach. And very untrusting of the justice system including lawyers I've hired. I've also been very disappointed in money spent for people to drop the ball and not do their job. That has NOT been the case with Casey. The way he and his staff handled things should be how every lawyer does business. I really felt like Casey put himself in my shoes and tackled my case as if he

was in my position. I was also very impressed with the client portal they had setup. Which was a first for me. Having direct access to all the documents with updates on the portal was like watching Hoyer Law Firm work in live action. I felt included and apart of my case. Versus on the sidelines having no idea what's going on. And what a brilliant idea the portal is! So organized. Im an over the road truck driver and Casey took on a traffic case. He had both charges dismissed. I live out of state and he was able to get my court appearances waved. Never met him or staff in person and I still felt taken care of and kept in the loop! I would most definitely hire him again. And will forever send anyone especially my trucking friends his way. Sit-to-stand Hoyer Lifts: These personal lift devices help people who can sit up in bed or a chair pull themselves up to a standing position. The sit-to-stand style lifts are only appropriate for those that can bear some weight, as using the device requires the person to use the lift as a tool to help pull themselves up, and most devices can support a person up to 300 pounds. These lifts have varying features, from narrowed edges to open bottoms for ease of access, depending on your needs. While hospital-grade sit-to-stand lifts can easily cost over \$5,000, it is now possible to purchase an affordable model that may save you money, but will not compromise on quality or safety.
